# IMPACT XPS

## TIRED OF STRIPPING SCREW HEADS AND SNAPPING BITS?

Makita® ImpactXPS™ is latest innovation in fastening with insert bits and fastening accessories built for the demands of the professional user.

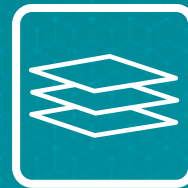

**LASTS UP TO  
90x LONGER**  
Compared to  
standard bits

**PRECISION  
MACHINED TIPS**  
With a full contact fit for  
improved holding power &  
longer life

**PULSE  
TORSION ZONE**  
For better transfer of  
impact power

**UNIQUE CARBON  
ALLOY STEEL**  
Blend flexes for longer life

LASTS UP TO

# 90x LONGER

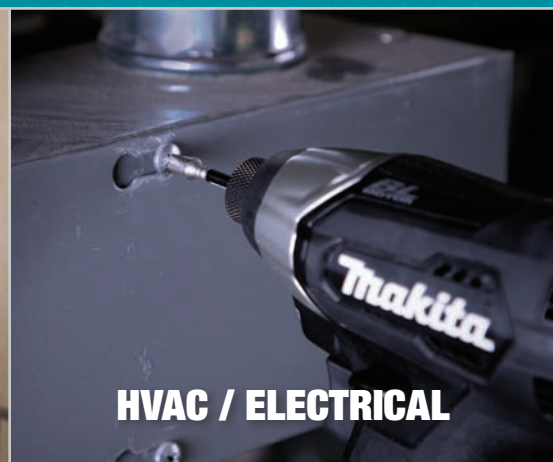

THAN STANDARD BITS

**WOODWORKING**

**DRYWALL**

**HVAC / ELECTRICAL**

# EXPERTLY ENGINEERED

TO WITHSTAND THE HARDEST HITTING IMPACT DRIVERS

## POWER BITS

The Impact XPS® Power Bits are designed exclusively for use with high-torque impact drivers, and are engineered to last up to 90-times longer than standard insert bits.

## INSERT BITS & HOLDERS

The Makita® Impact XPS® Magnetic Insert Bit Holder is ideal for use with Impact XPS Power Bits (sold separately) for added holding power. The bit holder is engineered to allow the torsion section of the bit holder to flex under load, taking pressure off the bit tip for increased durability in high torque applications.

## NUTSETTERS

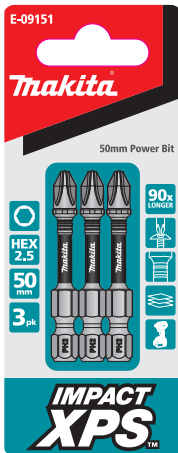

The Makita® Magnetic Nutsetter is designed to drive hex head nuts and self-tapping screws in a variety of applications. A hex shank allows for convenient use with high-torque impact drivers and driver-drills. Flat edges at the hex opening provides full contact with flanged hex head screws. The magnet allows for easy one-handed operation.

## SOCKET ADAPTERS

The Impact XPS® Socket Adapter is designed exclusively for use with high-torque impact drivers. Chamfered edges of the square drive end allows for easy installation and a retention ball helps secure the socket. The high quality steel construction provides increased durability and features a matte nickel surface for best in class corrosion resistance.

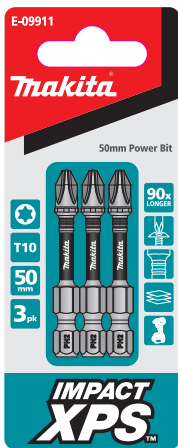

## HEX ( ALLEN KEY ) HEAD

Part #	Description	Size	Qty
