Two 18V Li-ion batteries can be directly installed on the machine to supply energy to the powerful 36V DC motor drive system.

The compatible batteries are:

1.5Ah BL1815N

3.0Ah BL1830

4.0Ah BL1840

5.0Ah BL1850

When different capacity batteries are used together (for example, 1.5Ah BL1815N and 3.0Ah BL1830, or fully charged BL1830 and 70% charged BL1830), the machine stops when the battery with less capacity gets empty.

XPT (eXtreme Protection Technology) Enhanced dust and drip-resistant performance

XPT is a protective seal inside the tool engineered to provide improved water resistance by channeling water and dust from the tool's key internal components.

For use in outdoor applications or harsh environments, protection from dust and dripping water is enhanced.
