# PM7650H Petrol Mist Blower

**MM4**  
MAKITA MINI 4-STROKE ENGINE

**Environment-friendly  
and cost saving**

# Comfortable backpack harness, well balanced chemical tank design.

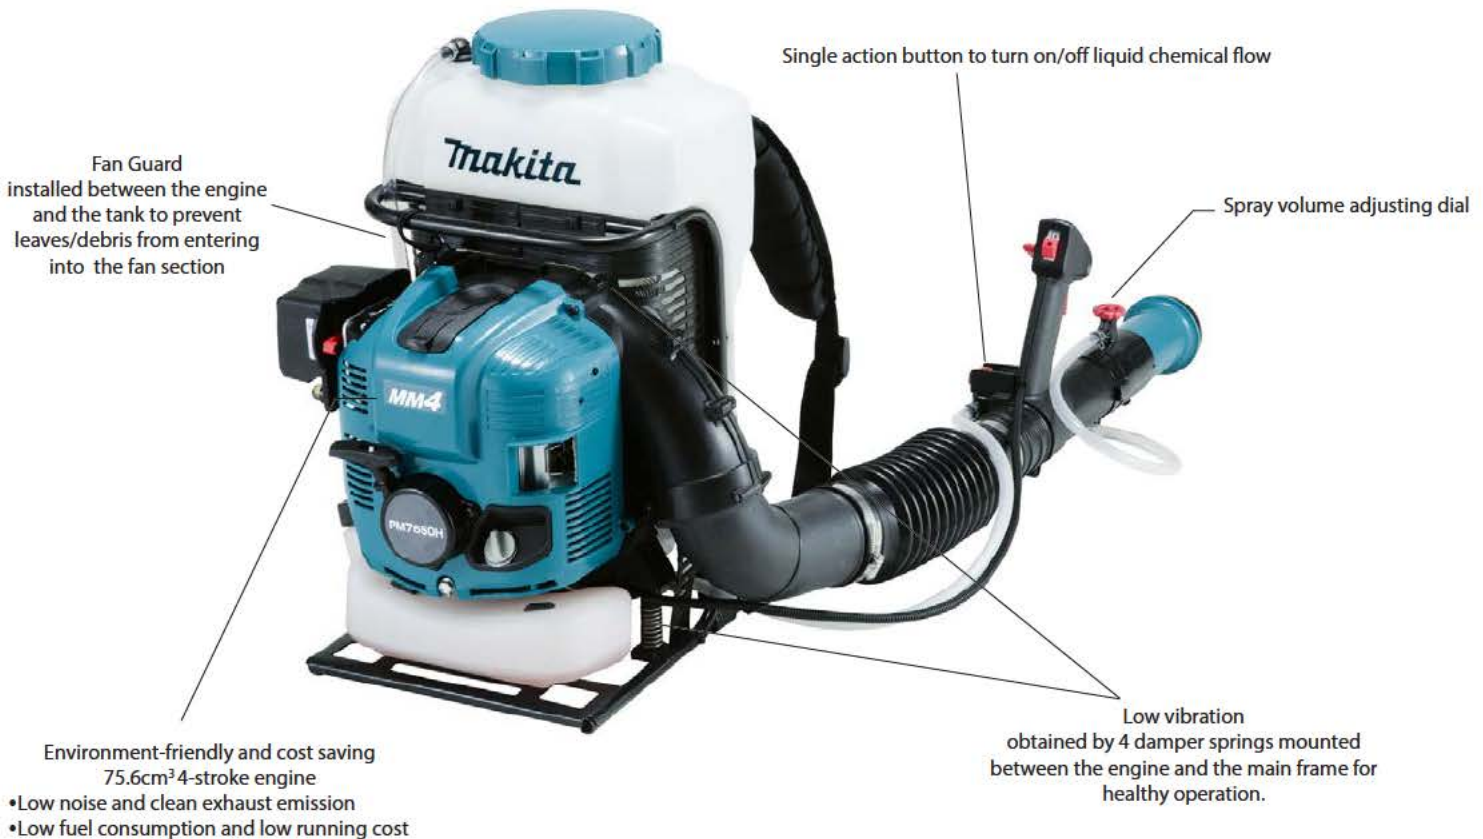

## Liquid chemical self-mixing function

- Liquid chemical in tank is automatically mixed by intake airflow to the fan to keep uniform solution concentration.
- The check valve is installed in the air flow route to prevent back flow of liquid chemical when the engine stopped.

## Diffusion cover

(Wide spray attachment)

- Liquid chemical can be sprayed widely
- The cover can be tied to the nozzle top with a string

## Petrol Mist Blower

## PM7650H

	PM7650H	<b>MM4</b> MULTI-MIXER MIST BLOWER	
<b>Engine</b>	Type	4-stroke	
	Displacement : cm <sup>3</sup> (cu.in)	75.6(4.61)	
	Fuel	Unleaded	
	Max. output power : kW (PS)	2.7 (3.67) (at 7,000 min. <sup>-1</sup> )	
	Max. engine speed : min. <sup>-1</sup> = rpm	7,400	
	Idling speed : min. <sup>-1</sup> = rpm	2,800	
<b>Engine Oil</b>		SAE10W - 30 oil	
<b>Dimensions : mm (")LxWxH</b>		420 x 440 x 595mm (16 1/2 x 17 1/4 x 23 1/2)	
<b>Carburetor</b>		Diaphragm	
<b>Starting system</b>		Recoil starter, with mechanical decompression	
<b>Fuel Tank capacity : L</b>		1.8	
<b>Chemical tank capacity : L</b>		15.0	
<b>Max. spray range horizontal): m</b>		15.0	
<b>Max. air velocity : m/s</b>		16.0	
<b>Max. air volume (with nozzle): m<sup>3</sup>/h</b>		845	
<b>Dry weight (with Straight pipe) : kg</b>		13.3	

**Standard Equipment :** Oil bottle (containing 220ml of oil), Hand Strap, Box wrench, Screwdriver, Diffusion cover (wide spray attachment), Hose Clamp 76 (3x), Hose clamp 100, Flexible pipe and Straight pipe 330.
